## MATT WILSON KILLED IN AUTO ACCIDENT

Ike H. Noyes Also Injured. Probably Victims of Reckless Driving.

Matthew D. Wilson was killed and Ike H. Noyes badly injured Wednesday evening about 5 o'clock in a motor car accident seven miles east of Eureka, Kansas. They left here early in the morning in company with C. F. Neff of Kansas City, to inspect the drilling of an oil well in the Eureka district on the property belonging to the Lexington Oil Corporation. In the car were C. F. Neff, driving, and Mr. Wilson on the front seat, and Ike H. Noyes of this city, John T. Mitchell of Blythe, Mo., and Harry Johnson of Albany, Mo., on the rear seat. The accident is said to have occurred, as most accidents do, in reckless driving around a corner. The car went into the ditch and turned over. Mr. Wilson died on the way to Eureka, living only a short time. Mr. Noyes and Mr. Neff were painfully injured while the other two men escaped with slight bruises.

Mr. Wilson was the son of the late Upton Wilson, and was born in Warrensburg, Mo., September 18, 1868. He was a graduate of the dental department of Washington University with the class of 1891. In March of the same year he formed a partnership with Dr. Eckle, a member of the same class. After a year he practiced alone, until 1897, when he met with the accident which deprived him of his left arm. This necessitated a change in vocation and after another year's association with Dr. Eckle, he joined his brother, S. N. Wilson, in the real estate and insurance business which he successfully managed up to the present time. Mr. Wilson was a splendid type of man. He was a good friend, dependable, honest and honorable in the intercourse with others. He was married in Lexington to Miss Mayme Chew, April 8, 1899. Mrs. Wilson survives him together with two brothers, S. N. Wilson of this city, L. Fry Wilson of Potosi, N. M., and one sister, Mrs. Lee Hawkins, of Mangum, Okla.

The body is expected to reach here this morning when the fu-

## Colored Men Called.

Forty-eight colored men, all remaining of the Class 1 men of the first registration, will entrain about August 1st for Ft. Riley, Kansas.

General arrangements will be announced.

My friends these are strenuous times, we are engaged in one of the most stupendous wars in the history of the world.

When that small body of men, on that memorable 4th of July, assembled in Philadelphia, drew up and signed that historic document by which we were guaranteed a Government of the people and by the people as long as the people remained united. And when in 1861 our constitution was put to the most trying test and came triumphantly through this trial by fire, simply because the majority willed the country should remain united.

For the past three or four years our country has faced and is facing now another ordeal by fire—a trial that shall prove to all nations that the principles of Democracy under which this Government was founded are right and backed by a people united in the determination that, "The world shall be made safe for democracy."

Again must the declaration be signed; not by a few men in one city, but by each citizen in every city and town, from the Atlantic to the Pacific and from the Great Lakes in the North to the Gulf of Mexico.

Thousands of your sons are going to sign by offering their all—their lives. You have been asked by your country to give up these boys that they may go to the front and bare their breasts to those Hun bullets and the deadly gasses, and you have given them up like true Americans with a prayer on your lips for their safe return.

You have also been asked to buy bonds and thrift stamps, which is no sacrifice. You have been asked to give and give until it hurts to the Red Cross, that these boys who so nobly answer the call and are now over there fighting for a just cause, will be well taken care of when trouble overtakes them—to these calls you have been most generous.

The above is history, the balance is politics. I am in the race for County Collector, and respectfully ask your support at the Primary on August 6th. I have been a Democrat all my life—have paid taxes in the county over forty years, and now, would like to collect taxes.

Look up my record and qualifications and if you can support me, I thank you in advance for the favor.

Yours truly,  
J. F. WINN.

One trouble with the ice situation in Lexington is the unfair distribution of the available supply. If you are unfortunate enough to live near the ice plant, you'll be the first served every day, or as long as the supply lasts, instead of given every consumer chance turn and turn about.

In 1867 they moved to Lexington where she has since lived. Mr. Heathman died September 7, 1891.
